

Claim Amendments

What is claimed is:

1. (currently amended) A breathable film cover for window structures comprising:

a first non-foam polymeric polyvinyl chloride film layer including internal metal particles and UV stabilizers;

a second non-foam polymeric polyvinyl chloride film layer secured to the first polymeric polyvinyl chloride film layer; wherein the second polymeric polyvinyl chloride film layer incorporates UV stabilizers; and

an adhesive layer applied to a surface of the first polymeric polyvinyl chloride film layer,

wherein the first polymeric polyvinyl chloride film layer, the second polymeric polyvinyl chloride film layer and the adhesive layer are permeable to moisture.

2. (original) The film cover of claim 1 wherein the adhesive layer incorporates UV stabilizers.

3. (currently amended) ~~The film cover of claim 1~~

A breathable film cover for window structures comprising:

a first polymeric polyvinyl chloride film layer including internal metal particles and UV stabilizers;

a second polymeric polyvinyl chloride film layer secured to the first polymeric polyvinyl chloride film layer; wherein the second polymeric polyvinyl chloride film layer incorporates UV stabilizers and wherein the second polymeric polyvinyl chloride film layer is a

clear stabilized film and

an adhesive layer applied to a surface of the first polymeric polyvinyl chloride film layer,

wherein the first polymeric polyvinyl chloride film layer, the second polymeric polyvinyl chloride film layer and the adhesive layer are permeable to moisture.

4. (original) The film cover of claim 1 wherein the adhesive has an ultraviolet light absorber.

5. (currently amended) The film cover of claim 1 having no more than two polymeric polyvinyl chloride film layers.

6. (currently amended) A breathable film cover for window structures comprising:

a ~~two-layer~~ film including

a first translucent polymeric polyvinyl chloride film layer including internal metal particles and UV stabilizers;

a second clear polymeric polyvinyl chloride film layer secured to the first translucent polymeric polyvinyl chloride film layer; the second clear polymeric polyvinyl chloride film layer incorporating UV stabilizers, and

an adhesive layer applied to a surface of the first translucent polymeric polyvinyl chloride film layer, the adhesive layer including UV stabilizers;

wherein the first translucent polymeric polyvinyl chloride film layer, the second clear polymeric polyvinyl chloride film layer and the adhesive layer are permeable to moisture, wherein the film has no more than two polymeric polyvinyl chloride film layers.

7. (canceled)

8. (canceled)

9. (canceled)

10. (new) The film cover of claim 1 wherein the adhesive layer is an acrylic adhesive.

11. (new) The film cover of claim 1 wherein the adhesive layer is a clear pressure sensitive adhesive.

12. (new) The film cover of claim 3 wherein the adhesive layer is an acrylic adhesive.

13. (new) The film cover of claim 3 wherein the adhesive layer is a clear pressure sensitive adhesive.

14. (new) The film cover of claim 6 wherein the adhesive layer is an acrylic adhesive.

15. (new) The film cover of claim 6 wherein the adhesive layer is a clear pressure sensitive adhesive.
